

1. This is the console log for message loggings, and message logged by browser (404 and other errors)

The screenshot shows a web browser's developer console with the following content:

- Console Tab:** Shows a list of messages with filters for 'top', 'Filter', 'Default levels', 'No Issues', and '1 hidden'.
- Messages:**
 - Warning:** "Warning boiiii" (script.js:203)
 - Error:** "CLEAN UP ON ISLE 'MY CODE'" (script.js:207)
 - Table:** A table with 5 columns: (index), name, weight, happiness, and trust. It contains 4 rows of data.

(index)	name	weight	happiness	trust
0	'jobberknoll'	10	10	8
1	'puffskein'	5	10	8
2	'niffler'	10	10	4
3	'hippogriff'	50	10	2
 - Array:** "Array(4)" (script.js:211)
 - Beast unshelter:** "Beast unshelter" (script.js:215)
 - Log:** "mmmm me likes this" (script.js:219)
 - Error:** "GET http://127.0.0.1:5500/images/this-file-does-not-exist.png 404 (Not Found)" (script.js:224)
 - Error:** "Uncaught TypeError: Cannot set properties of null (setting 'name')". Stack trace includes: at HTMLElement.causeTypeError (script.js:229:21), at HTMLElement.dispatch (jquery-2.2.1.min.js:3:7516), and at n.event.add.r.handle (jquery-2.2.1.min.js:3:5597) (script.js:229).
 - Log:** "Violation test finished." (script.js:238)
 - Log:** "log info" (script.js:199)
 - Footer:** "> ctrl i to turn on code suggestions. Don't show again"

2. I filtered by log levels through dropdown and uncheckkng errors, this is the result
